Thousands Pay Last Respect to Late Prime Minister

A long line of mourners were on the steps of the Parliament Buildings to file past the casket of Rt. Hon. Wm. Lyon Mackenzie King and pay their last respects to the former Prime Minister. Nearly 500 persons were waiting when the RCMP opened the doors leading to the Hall of Fame where the casket lay.

Jean Hamel Becomes Bride Of Douglas Vervilie, July 31

LAC LA BICHE.—In the Catholic church on July 31, a beautiful scene was enacted when Miss Jeanne Hamel, youngest daughter of Mr. and Mrs. C. Hamel, became the bride of Mr. Douglas Verville of Edmonton.

Rev. Fr. McGrane officiated.

The bride, entering the church on her father's arm, was most beautiful in eggshell satin trimmed in French over-lace to the bodice while the skirt was draped in French over-lace. She wore a three-quarter length veil and carried a bouquet of sweetheart roses. Her only jewelry was a four-strand string of pearls, a gift from the groom.

Miss Ida Sorrel, cousin of the groom, was bridesmaid, in floor length yellow taffeta with over-lace.

The best man was the brother of the groom.

Th flowergirls were Judy Verville and Memily Sorrel of Edmonton.

Little Emile Rudiger was page boy, in a black and white suit. Jean Bouvier and Leo Dupiessis were ushers.

Mrs. C. Hamel, mother of the bride, was smart in a cocoa nut brown crepe silk with over-lace She presided at the organ and sang Ave Maria and a French hymn Jannette. Christine Roberts sang an English hymn, "On This Day Beautiful Mother."

The pews were decorated with sweet peas and pink ribbon for the bride's relatives, and in blue for the groom's.

From the church they went to the bride's home where pictures were taken, then to Mr. and Mrs. Joe Verville's parents of the groom, where a most delicious buffet dinner was served to relatives and friends.

From three to seven a reception was held at the bride's home to approximately 350 guests, received most cordially by the bride's sister, Mrs. G. Byrkelo, gowned in white nylon with red roses. A most delicious buffet luncheon was served. Tea and coffee was poured by Messrs. T. B. Lett. Dumas, Rudiger, Ostigue, Bouvier and Amiot. Many beautiful and useful gifts were received by the bride and groom.

A dance was held in the Memorial hall for the happy couple.

Out-of-town guests were Miss Janice Grofford of Harrisburg, Pennsylvania, Miss Helen Busseau of St. Paul, Mr. and Mrs. Bruce Verville and children and Mr. and Mrs. Sorrel, all of Edmonton, Miss Yvonne Dakin and a number of friends from Donnatville, and Mrs. Brunell of Edmonton. The couple motored to Great Falls, Montana for their honeymoon of two weeks and will reside in Edmonton.

EGG LAKE NEWS NOTES

An unfortunate accident which almost proved fatal happened to little Paula Vincent, 20 months old daughter of Mr. and Mrs.. Marcel Vincent, lately. Mrs. Vincent was working in her garden by the house, while her two daughters were playing outside, when suddenly she missed little Paula. She started looking for her and calling her. She thought of looking in a barrel, one-third full of water and found her there. She was unconscious, but after a few minutes of artificial respiration, she regained consciousness.

The baby's father was in Edmonton on business. Fortunately Mr. Leo Lapierre happened to be there and rushed the baby and her mother to the hospital. She was able to take her back home on the promise that she would take her back if she caught any cold. They took her back to the hospital on August 1st, in case pneumonia develops. We wish her a complete and speedy recovery.

Miss Marie Jeanne L'Heureux made a trip of a week to Cutknife, Sask., to visit friends. She also visited Adanac, Tako and Unity. She is back home now.

Mr. and Mrs. Bernard Amiot are again with us for their two weeks holiday. They motored from Foothills on July 31st. They will visit their numerous friends and relatives.

Some gardens have been damaged by the hail on July 27th, but most of us have been fortunate enough to have our crops and gardens undamaged.

Mrs. H. M. Olson is out of the hospital and will be back home soon.

CASLAN NEWS NOTES

Mr. Alex Adaszyncki has moved back to his farm by Buck Lake.

Miss Marion Johnson went to Venice where she planned to work for a while.

The weed inspector was a caller around the Caslan district recently.

Mr. L. Steed of Boyle has an outfit in brushing and piling. They have done work for John Sawka, M. Sawka and Walter Meyer. Earl Lindstrom and Earl Holst are driving the cat.

Mrs. F. Krueger has returned home after a short holiday.

Mr. R. Raitt was in Edmonton recently.

Among the many folk who went to Lac Ste. Anne were Mr. and Mrs. A. Adaczynski.

Miss Rosie Beztily and Patsy Trenchie of Thorhild have visited at the Cislo home this past week. Mrs. O. Trenchie and Mrs. J. Beztilny also motored down for a short visit.

Otto Faugh of Trains has been visiting his sisters here in the district.

Other callers in Boyle during the week included Mr. and Mrs. A. Matushck, Mr. Sawka, John Sawka, Albert and Glen Meyer, A. Gordon and E. Espback.

Mr. Wm. Krowchuk and Peter were business callers in Boyle and also went to Athabasca for repairs.

Mr. and Mrs. J. Joncas of Lac la Biche visited relatives here last Sunday.

Rev. A. H. Sovereign Pays Last Visit to Lac la Biche

LAC LA BICHE.—On Sunday, July 30, the Right Rev. A. H. Sovereign paid his last visit to the Parish of Lac la Biche before his retirement.

Six young people were confirmed by the bishop in the ancient rite of the laying on of hands—Mr. and Mrs. Bob Henderson of McRae, Mrs. Pearl Hellerud, Mrs. Elsie Minnie, Marie Hellerud, Archie Hellerud, all of Brierville. We are proud of these young people, many of whom came twenty-seven miles by horse and buggy to be at the service.

Bishop Sovereign was born in 1881 at Woodstock, Ont. He is a graduate of the University of Toronto, receiving his M.A. with honors in 1906, and of Wycliffe College. He also did post-graduate work in theology and philosophy at Oxford. In 1909, at Holy Trinity Cathedral, New Westminster, he was ordained to the priesthood. During the following two years he served as curate at Christ Church, Vancouver, and was then appointed first rector of the parish of St. Mark's in the Kitsilano district. After a rectorship of twenty-two years, he was elected Bishop of the Yukon, leaving St. Mark's as one of the most aggressive and well-organized parishes in the Diocese of New Westminster. His term as Bishop of Yukon was brief, for on September 22, 1932, less than 10 months after his consecration, he was elected and translated to the larger and more important See of Athabasca.

For eighteen years Bishop Sovereign has given freely of himself in the leadership of the church in this north country. A builder by nature, he has planned and supervised the erection of numerous churches, rectories, parish halls and mission cottages. His endless energy and unquenchable zeal have inspired his clergy and workers to unbelievable accomplishments. Thus in less than two decades the church of the "last great frontier" has been transformed from a struggling child, dependent entirely upon its parent church, to a strong, healthy and vigorous youth, anxious to stand on its own feet and to contribute to the family life of the Canadian church.

The best wishes of many friends go with Bishop and Mrs. Sovereign to Vernon, B.C., where they will make their new home.

DELPHINE RIZZOLI WEDS D. J. LETT

LAC LA BICHE. — White bows with sweet peas marked the guest pews at the Sacred Heart church, Edmonton, which was decorated with bouquets of sweet peas and gladioli on Wednesday, July 26th, for the simple wedding ceremony in which Miss Delphine Rizzoli became the bride of Mr. Donald John Lett. Mr. and Mrs. Louis Rizzoli and Mr. and Mrs. T. B. Lett, parents of the bride and groom are all of Lac la Biche.

Rev. Father Gaudet performed the ceremony, assisted by the Rev. Father Langevin.

The bride wore a suit of silver grey gabardine with white accessories, and a beautiful corsage of white and pink roses. The bride was attended by her sister, Miss Marie Rizzoli, who wore a suit of navy blue gabardine with a bouquet of pink roses.

Attending the groom as best man was Mr. Paul Shekenski.

A private dinner for the wedding guests was served in the banquet room of the King Edward hotel. The tables were tastefully decorated with sweet peas and carnations. Father Gaudet gave the best wishes of the gathering to the young people.

After the banquet a reception was held at the home of Mr. and Mrs. G. Bissett. The groom's mother wore turquoise blue mesh dress with white accessories and a corsage of sweetheart roses. The couple will reside in Lac la Biche after a short honeymoon.

Christian Lessons Each Sunday Evening

LAC LA BICHE.—At the Lac La Biche Gospel Tabernacle every Sunday evening at 7:30, Mrs. Sherstan is giving a series of ten flannelgraph lessons on "The Christian's Time and Talents." You are invtied to attend.

An oyster can produce 114,000,000 eggs during its lifetime.

LAC LA BICHE NEWS NOTES

Mr. and Mrs. Joe Gairdner and son Garry from Kimberly, B.C., visited at the home of Mr. and Mrs. Pete Sampietro. Mrs. Sampietro is the sister of Mrs. Joe Gairdner. Joe had the misfortune of losing his wallet containing money and important papers. Any one finding it please return to Kimberly, B.C., or Box 145 Lac la Biche.

Mrs. Lloyd and son Ronald returned home after a ten-day holiday at Arvilla visiting Mr. Lloyd.

Miss Beulah Quest returned home after a month's holiday visiting her parents at Coronation and Dawson Creek. Her sister Shirley returned with her for a short visit.

Miss Lucille Tatum has returned from Edmonton, where she has completed a six weeks' course at the meteorological office as weather observer. Miss Tatum has taken up duties here at the meteorological office as weather observer.

Mr. N. Letourneau, accompanied by his daughter, Annette, went to St. Paul one day last week.

Mr and Mrs Walter Kirkland and family of Edmonton, spent a week visiting Mrs. Kirkland's sister, Mrs. I. Settles and Sampietro brothers and families. They were entertained at the home of Mr. and Mrs. W. Hamilton and enjoyed a most pleasant evening.

Eugene Gagon of St. Lina is visiting with Tony and Ronald Sampietro.

Mr. and Mrs. Armand Labby and their children, Margaret and Denis of New Westminster, B.C., have motored to Lac la Biche through the United States. They spent two weeks at the home of his parents, Mr. and Mrs. Fred Labby.

Fifty Young People Enjoy Week's Outing

LAC LA BICHE.—Although there were showers practically every day between July 13th and 20th, some fifty boys and girls, young people and Christian workers, spent an enjoyable week at the Canadian Sunday Mission Camp at Little Egg Lake. Mr. Percy Trudgeon, superintendent of the mission, directed the camp.

The mornings of that week were spent in bible lessons and instruction in practical Christian living, while the afternoons were devoted to swimming and sports.

The closing meeting was on Wednesday, July 19th around a bonfire, where special vocal and instrumental numbers were rendered as well as chorus singing and testimonies given by different campers. This was followed by a wiener roast.

M'MURRAY NEWS

Mrs. H. Coffyno and Roberta left last week to spend their holidays at the west coast.

Mr. Paquette has been visiting his mother in McMurray.

Mr. and Mrs. R. Howell and Donna left McMurray last week for holiadys in Edmonton, before Mr. Howell takes his new post at Yellowknife.

Rev. and Mrs. Humphries and family left McMurray last week for Athabasca.

Rev. J. Davies arrived in McMurray last week with his family from Wabasca, to replace Rev. Humphreys as rector.

Miss Verna Winn, of Saskatoon, is spending her holidays with Mr. and Mrs. Finlayson.

Miss Shirley Mitchell of Waterways is spending her holidays in Edmonton.

KIKINO NEWS NOTES

Miss Viola McGillivray of Edmonton is here in Kikino visiting her friends and old boy friends.

Mr. Elmer Donald from Donatville took a truck load of people to Lac Ste. Anne on Tuesday morning where they spent three or four days.

Mrs. Ted Knoll is a patient in the Lac la Biche hospital.

There were quite a few people from here went to the Goodfish Lake treaty. The baseball team went down there also but they were beaten.

All last week the men were fighting fires in between here and where the oil camp is, and the fires are still going strong. It is only about a mile north of our village.

Largest Continent

The continent of Asia contains about one-third of the whole of the dry land, and one-twelf part of the whole surface of the globe.

Chimpanzees sometimes perform a kind of dance.

Out to Lunch

Bring your business associates here to lunch. Your friends, too—they will compliment you on your good taste.

We offer a wide selection of tempting dishes that put your guests in a mellow mood.

Our friendly service is an invitation to luncheon enjoyment. For mealtime enjoyment come here often.

Jeoffroy CHISEL PLOW

MAKES THE SOIL DRINK DEEP

. . . This is one reason for its outstanding success as an all-around farm plow. The Jeoffroy Chisel breaks up the hard-pan. Moisture runs down into the subsoil for storage. **It is the proven answer to preventing wind and soil erosion.**

OUTSTANDING CONSTRUCTION

- The 22" shank gives greater clearance for trash plowing.
- Double coil springs on release trips eliminates breaking or bending.
- All welded frame give greater strength.
- Lug-type clamps on release directs pressure into beams, eliminates bending of frame channels.
- Removal of any shank or clamp is accomplished without dismantling complete frame.

The new improved JEOFFROY Chisel Plow works satisfactorily in stoniest land and heavy soils.

See Us about this outstanding Chisel Plow — NOW!

MORE SEPARATING CAPACITY

Than Any Other Thresher on the Market

the Keck-Gonnerman Thresher

. . . for 75 years the Farmer's Dependable Friend!

Almost four decades of experience in building dependable equipment for farmers has been put into the construction of the new Keck-Gonnerman Thresher . . . with the result that this thresher has exclusive construction features which are readily appreciated by the experienced farmer.

Study These Exclusive Advantages:

- 12 foot feeder carriers that are adjustable to any desired height from 36" to 74" merely by turning an adjusting crank.
- Feeder governed by fly-ball speed governor and volume control governor.
- All necessary adjustments for good threshing can be made while machine is in operation.
- Furnished with 12 bar cylinders on 28x48 and smaller machines and 15 bar cylinders on 28x50 and larger machines.
- Cylinder and blower shaft mounted on double row, self-aligning ball bearings.
- Equipped with 2 beaters for more efficient operation.
- Adjustable traveling rake chain back of cylinder elevates straw over separating grate and helps to distribute straw evenly onto racks. The rake chain added to the large concave and grate area gives the Keck-Gonnerman thresher the largest separating area of any machine on the market.
- Straw racks are divided and are evenly balanced, practically eliminating vibration of the machine.
- Six rows of steel lifting fingers operate up and down 215 times per minute while the rack moves back and forth at the same speed. The fingers toss the straw upward, tear it apart, and shake out any remaining grain.
- Heavily constructed channel and angle-iron frame put together with hot rivets. Frame will remain rigid after years of use.
- Blower shaft equipped with bull horns placed in position to auger and force a steady stream of straw into the blower. Practically impossible to choke blower.
- Full width door in rear permits sieves to be changed with minimum of time and effort.
- Heavy galvanized sheet-steel construction. Water- and weather-tight decks.
- The Kay-Gee weigher elevator is of belt and bucket construction.

Liberty and Democracy Seen Rising Question in Alberta

By HENRY THOMPSON

Just what rights does a private person have and how much freedom does a Democracy allow? This is the rising question in Alberta today.

Canadian born must conduct themselves with strict decorum, while aliens are free to warp the minds and wills of former Europeans in this country without hindrance and sometimes with the assistance of the law.

The Sons of Fredom, in B.C., have for years, burned their houses, blasted railway and other public property, their women have disrobed in the courts and out of them, and in every way possible defied the authorities. The dominion's broad-minded forbearance fails to take definite action to solve this trouble actuated by a mental disability in religious beliefs.

I attended a meeting recently where two communist speakers extolled the virtues of the Kremlin dominated communist regime in the Ukraine, drew comparisons with this country, social, economic and educational. According to them, our poor democracies are far behind in all these things. The speakers, however, complimented Alberta on its educational set-up but said the Ukraine's standard of education was the best in the world, which is no doube true for their communist purpose, that of domination of the world.

People hungry for news of conditions where many of their relatives still live behind the Iron Curtain, listened to the speakers with avid interest and swallowed piece meal this communist propaganda.

At the end of a four-hour relay speech, two D.P. immigrees requested permission to question the speakers on some of their statements. This was promptly refused.

Some Canadians present demanded a question period as a democratic right but sympathizers in the audience threatened the questioners with eviction. The questioners left the hall but returned later with some good Canadian eggs. One well placed egg smote an intellectual square on the forehead. The ensuing fight cost the egg throwers a heavy fine.

People cannot express resentment for a dictatorial abuse of their rights in a properly conducted public meeting within the law, except only after being drafted to fight in the shooting war which could follow. The privilege of a question period, where any statement made by a speaker can be questioned as a non-truth, is no light matter.

The principle involved in this case leaves the ordinary person helpless to combat the lying tactics of our foes. Their purpose is only to poison the minds of people before proceeding with the actual shooting war such as is now underway in Korea.

ALTA. RAT SEARCH ON

The big search is underway in Alberta.

Destructive Norway rats, now invading this province, which has until recently been the only rat-free area in North America, is going to meet plenty of resistance to his invasion.

A four-man field crew has been rushed to Alsask, where rats have formed their first Alberta colony .An all-out effort is being made to exterminate them.

Two recent instances are known of rats being found in Edmonton.

Daysland Sun Quoted By National Magazine

In he August 1st issue of MacLean's Magaine, published at Toronto, Ontario, the Daysland Sun, a Community Publications newspaper, has achieved national recognition and publicity.

A recent item from the editorial page is published under "Wit and Wisdom" on page 46 of the issue. It reads as follows:

Give Science the Lye—Scientists would have homething if they discovered a solution about what to do with the piece of soap that is too thin to lather wih yet too thick to discard.

—Daysland, Alta., Sun.

The Daysland Sun is the second paper published by Mr. Pue to receive wide attention this year. In March the Hardisty World was quoted at length in the Canadian House of Commons and the report carried in Hansard.

Everyone Gets Into The Act

Alberta's proud Stony tribe recently donned their traditional war finery to celebrate the 61st Indian Day at Baff. Among the celebrities joining in the capers was former film star Harold Lloyd, right, who tried on the eagle-feather bonnet of Chief George Crawler for size.

Seeks New Alberta Link For Highway to Alaska

An organized effort is being made in the Lac Ste. Anne country northwest of Edmonton to press the provincial government to build a new highway that would shorten the route to Peace River and the Alaska highway by 200 miles.

Chambers of Commerce and Boards of Trade in towns like Onoway, Sangudo, Mayerthorpe and Whitecourt are urging that a new 109-mile road be pushed through the rolling hills behind Whitecourt to Valleyview, near Grande Prairie.

Present route to the Peace River country and Alaska takes travelers over a winding route up through Athabasca ,Smith and High Prairie.

The Valleyview highway, running through beautiful country, would enable travelers to make the trip in half the time. New Alberta link with the Alaska highway would take motorists through Onoway, Gunn, Glenevis, Cherhill, Lisburn, Sangudo, Rochfort Bridge, Mayerthorpe, Greencourt, Lombell, Blueridge, Whitecourt, Valleyview, and thence to Grande Prairie or Peace River.

Active in the drive, just now gaining momentum, is the Mayerthorpe Chamber of Commerce .

Executive of the Chamber is comprised of J. Thomsen, president; J. Sherratt, vice-president; J. Allen, treasurer; and G. Edwards, Leo. Crockett Jr., Harold Grigg and L. Gould.

Local businessmen, of course, are looking at the new highway as a source of increased business. Just as important as this, however, is the fact that the entire region would get an economic shot in the arm without any other area of the province suffering because of the new road.

The Valleyview highway, according to advocates, would open up a new field of development, and would encourage expansion in the Lac Ste. Anne and Peace River country that would otherwise not occur.

Cost of the new highway would not be as great as road-building goes. There is a chain of long, low valleys flanked by distant hills, and no obstacles would be encountered in sweeping a new road through the unsettled region between Whitecourt and Valleyview.

The Railway Strike

Threatened strike by Canada's railway workers would be a strike against the general welfare. Thta's the stand this newspaper takes in regard to the walk-out which rail workers say they will take if their demands are not met.

A national railway strike would be unthinkable because:

It would throw thousands of other people out of work.

It would upset our industry to such an extent as to create almost chaos in the productive and distributive phases of of Canada's national life.

Iit would cost farmers millions of dollars in lost produce which they could not deliver to the markets.

We are not concerned at the moment with whether or not the rail worker's demands are just. What we are concerned with is the general welfare of all people in Alberta, and all over Canada.

One of the reasons the labor movement has been getting a bad name lately is because of its apparent 'don't care' attitude about other groups in our society. Organized labor seems sometimes to be interested only in the advancement of its own minority (and it's still a minority), and is willing to sacrifice the welfare of others to gain its own ends.

This ia pro-labor movement paper. But it's not pro-labor to the extent of not caring about the welfare of others.

Gas Export Urgent

The delaying tactics in the House of Commons in granting incorporation rights to companies desirous of building pipelines, and the reluctance of the Alberta Government to give impetus to any move in this direction, may result in Alberta Natural gas being not exported at all.

This newspaper holds that export of gas should be made, now that proven reserves are assured, and at the same time gas service be extended to towns and villages in the province. We suggest that the royalties from gas export be used to subsidie building of lines to towns such as Killam, Hardisty, Daysland, Beiseker, Rockyford, etc.

In building of feeder lines to gather gas from the area in the province where it is to be found, such points as Lac la Biche, Redwater and Morinville should receive gas service because they are in areas where there are known reserves of natural gas.

Other towns ,such as Legal, St. Albert, and Crossfield must rely on the building of trunk lines to receive gas service.

There are, thus, three ways in which Alberta towns and villages can receive natural gas service. But let's hurry up and get on with export to Winnipeg and the Pacific Coast before Texas and Oklahoma invades these markets.

Boon For Farmers

Thousands of farmers in the United States have turned to the use of farm ponds for irrigation, hatcheries and, occasionally, as a supply for fire-fighting.

The ponds often represent nothing more than a dammed creek or a natural or a man-made depression that catches and stores water. Some are small and relatively simple. Others cover acres and have intricate spillways.

It is quite possible that many farmers have overlooked the possibility of creating a water reservoir on their land. In some instances, it ought to be possible to impound water and use it to irrigate a limited acreage. In all cases, if the pond is large enough, the owner has a chance to grow a fish crop, which possesses recreational, as well as monetary, value.

Note and Comment

Now if it could only put floors and ceilings on the thermometer, what a wonderful govment we'd have.

* * *

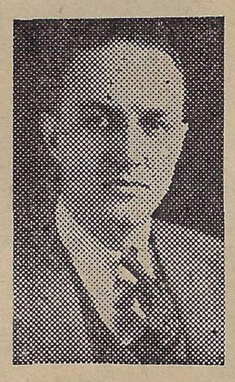

We often wonder if our governments might not be run just a bit more efficiently if we remembered that our politicians and civil servants are not our bosses but rather hired hands, hired to work for us.

War With Russia Foretold In 1927

By T. W. PUE

Those addicts of American magaines, like myself, who are old enough to remember when Liberty got its start will recall the famous story about "Red Napoleon" who, in a futuramic story, made war with the U.S.A. in 1952.

The story was sensational, and so well written that it read as though the grim events had actually taken place. I recall that Al Smith was elected President of the U.S.A. and it was he and his cabinet that had the job of leading the Americas against armed invasion from Russia.

T. W Pue

One Eyed Floyd

Author was Floyd Gibbons, who always wore a shield in place of one eye he had lost, and I wonder if Floyd were alive today would he not be tempted to strut around and murmur to all and sundry "I told you so."

I sincerely regret I don't recall much of the story I read twenty years ago, but in true American fashion, the Yanks won hands down. As I recall it, Russia had conquered the whole eastern hemisphere, the British Empire, Canada, South and Central America. Red soldiers had occupied just about every part of the U.S.A., with the exception of the District of Columbia including Washington, the Capital City.

But, of course, the Americans won the war. Remarkable people, the Americans.

How Red Can We Get?

There are 200,000,000 people in all of the U.S.S.R. today. Certainly not all of them are "Red" but they are dominated by Communism and in a war will no doubt all be forced to lend their strength against the free world.

China, with 400,000,000 souls is now effectively under the control of Red leaders, and Korea with 25,000,000 is practically all occupied by Communist forces.

India, with another 400,000,000 people is urging the Security Council to replace Nationalist China with the Communists as the accepted leaders of Chiang Kai Chek's former domain.

Half of Germany, and half of the Balkans including Austria and all of Yugoslavia, have probably 75,000,000 people, all under Communist domination.

Compared to Stalin, Napoleon, Bismarck and Hitler were school boys playing tiddly-winks. Stalin now has 1,100,000,000 people under the Communist spell.

It's a cinch he won't stop short now, and sit quietly and count his gains. I don't think, either, he is going to give up Korea very easily. No one can estimate how or when he will strike again. Will it be in Western Germany, Greece, Yugoslavia?

I don't like to be an alarmist but I feel the Democracies should all move forward as fast as possible to place military and production strength on at least 50 per cent of war time basis.

Red Napoleon is on the move, and we must be prepared.

Scriptural Meditations

By AINSLEY BLAIR

"The assurance is broad and unlimited, and he is faithful who has promised. When we do not receive the very things we ask for, at the time we ask, we are still to believe that the Lord hears, and that he will answer our prayers. We are so erring and shortsighted that we sometimes ask for things that would not be a blessing to us, and our heavenly Father in love answers our prayers by giving us that which will be for our highest good,—that which we ourselves would desire if with vision divinely enlightened we could see all thangs as they really are.

When our prayers seem not to be answered, we are to cling to the promise; for the time of answering will surely come, and we shall receive the blessing we need most. But to claim that prayer will always be answered in the very way and for the particular thing that we desire, is presumption.

God is too wise to err, and too good to withhold any good thing from them that walk uprightly. Then do not fear to trust him, even though you do not see the immediate answer to your prayers. Rely upon his sure promise, "Ask, and it shall be given you." Matt. 7:7."

The Lighter Side

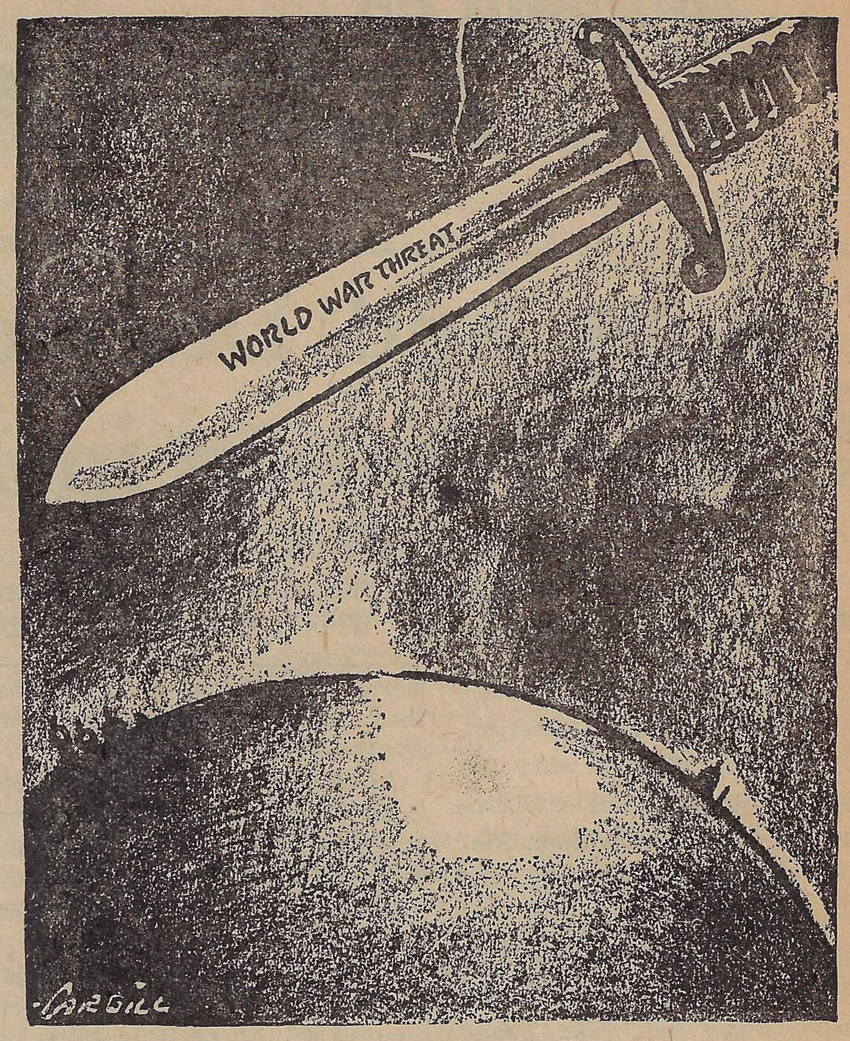

His Chance

Employer — Ephraim, you deserve a better salary.

Ephraim — Oh, thank you, sir.

Employer—So I'm giving you a week off to go out and get somebody else to give it to you, for I can't.

RECEDING HAIR LINE

Letters to the Editor

Wheat Carryover

Sir—Official figures: wheat in store, June 22, 102 million bushels; June 29, 100 million bushels. This is a decline of only two million bushels per week, and 30 more than on the same date one year ago.

Urgently Needed: "gentlemen salesmen" to sell this 100 million bushels of wheat, as at July 1 last, and on which Alberta farmers will lose 60 to 75 cents per bushel if not sold before August 1 next.

Terms of employment: "sell or shut up and get out." no tough or double talkers wanted."

Apply Dr. How Tough, dominion agriculture department, Ottawa.

TOM L. POULSOM
Rochfort Bridge, Alberta.

"Make Way for Youth"

Dear Sir—I wish the government would start old-age pensions at 65 right away. If they can do it with Social Credit ideas and not cost anybody a red cent, fine and dandy. But why should men and women work until they are 70 and keep us young people out of jobs? I graduated this year from high school and only half of our class now have steady jobs. This is because older people insist on maintaining their jobs. Why can't they be retired on pension? Or haven't we young people got a right to live too?

South Edmonton DAISY

Deserters to Army

Dear Sir—How about getting scoundrels under forty years of age who desert their wives drafted into the Army. That might make men out of them. At least if my man was in the Army I'd know where he was and I'd get some support.

Jasper Place FORGOTTEN

99 per cent Foreign

Dear Sir—The readers of your paper doubtless exceed those who have the privilege of reading the Alberta Wheat Pool Budget, so I feel certain, Mr. Editor, that you will be performing a service kindly reprint these facts and figures given in the Budget of July 21, 1950:

Only one per cent of the contents of margarine comes from Canadian sources. The product is made up mostly of cottonseed oil imported from the United States.

The total quantities of oils used in the manufacture of margarine in Canada in 1949 were as follows:

Cottonseed	33,700,000
Soybean	12,625,000
Coconut	5,534,000
Peanut	2,053,000
Sunflower seed etc.	5,134,000
Total	57,055,000

"WHEAT POOL MEMBER"
Mayerthorpe

Right Name

Dear Sir—We have received a clipping from the June 14 issue of your newspaper. In the editorial "Alberta's Biggest Fortune" we noticed you mentioned it as appearing in the "Montreal Standard."

We would like to point out that the proper name of our newspaper is "The Standard". Because our newspaper is published in Montreal, it is sometimes referred to as the "Montreal Standard." This is incorrect, since the Stadard is a national weekend paper with the bulk of its circulation spread right across Canada. In fact, less than one-third of its total circulation is in Montreal.

Montreal LEWIS LOUTHOOD

County Scheme

Dear Sir—It is understood there are many so-called Social Crediters in this province and it is surprising that they do not elect a social credit government.

I believe in the kind of social credit practiced by all democratic governments, that is so arranging their taxation or pooling of money so that it will bear heavily on the rich and give social assistance to the poor, or an equalizer of wealth; but I do not believe in dictatorship that forces crippling taxation on one class of its citizens to the benefit of those more able to pay.

So far as the county scheme is concerned, I am not opposed to it if the people who are to pay the added cost and loss of control are first asked their opinion, but I am opposed to allowing less than five people in a population of 7,000 to 12,000 to give the go ahead signal that will allow other than elected persons to form a combination of local governments.

If Social Creditor wishes it I will be prepared to deal with facts at any time, even if he is ashamed of his name.

Killam J. GAIR

SUNDAY SCHOOL LESSON:

Elijah Was Remarkable Biblical Character

Highly dramatic is the lesson for this week. Spectacular are the scenes in the drama enacted from life as they are retold in living words.

Approximately seventy-five years had elapsed since the division of the Kingdom of Israel. Judah had been ruled by several kings and, at this time, by Jehosaphat. Israel had seen several dynasties and seven kings until Ahab's day and all of her leaders had been false to Jehovah. The start toward national heresy began with Jeroboam, the first king of Israel, who set up golden calves for political reasons and these had led to idolatry and the abandonment of the worship of Jehovah.

Ahab was even more wicked than his predecessors and had for his mate the Phoenician princess, Jeebel, whose name has become synonomous with wickedness. She, at least was vigorous and arduous in the support of her pagan gods and goddesses. Her influence with the king was such that the priests of Baal were supreme and the priests of Jehovah had been killed, scatered, or were in hiding from the royal wrath.

Into the scene comes a strange, mystic figure—that of a rugged priest ,emerging out of the wilds east of Jordan, dressed in skins and contrasting sharply with the luxury and vice of the capital. Before the amazed court of Ahab, Elijah stalks, representive of the ancient Israelitish Jehovah and, in words which were to be long remembered ,foretells the drought of several years: "There shall not be dew or rain in these years, but according to my word." From then on the land thirsted for water.

During this great suffering, Elijah remained in seclusion. At length the time came for the final act and Elijah went back into Israel. Encountering Obadiah, a member of the court circle and a faithful ,though timid, believer in Jehovah, Elijah sent word to Ahab to meet him.

The king came, greeting the prophet with the query: "Art thou he that troubleth Israel?" How often do human beings attribute their sufferings to unreal causes! How human it is to relieve ourselves from responjah points out the real trouble: "I have not troubled Israel, but thou andt hy father's house, in that ye have forsaken the commandments of the Lord."

Then Elijah proposed a contest with the forces of evil. He sugthe priests of Baal to Mount Carmel where a contest could demonstrate which god was the greatest. The king agreed and, on the appointed day, there gothered 450 priests of Baal to oppose the lone prophet of Jehoavh.

What a climax this scene represents? Evil enthroned and in power but about to be dethroned by one brave ,faithful and daring spokesman for Jehovah. Elijah placed the issue squarely up to the people assembled: "How long halt ye between two opinions? If the Lord be God, follow him," otherwise if Baal be god, follow him."

The contest was carried out. Every student of the Bible knows the details. The priests of Baal were given every opportunity to demonstrate the power of their god. They prayed but their prayers were unanswered. Then Elijah took over and, after preparing his altar and having the wood theron thoroughly wet, he prayed to God and God answered his prayer by sending lightning from the sky to consume the offering.

Elijah was full of faith. He knew the righteousness of his cause and he did not hesitate to challengeinto battle the hosts of ignorance, superstition and idolatry. The world needs more of this great faith and courage today. Too often the forces of evil go unrebuked because the representatives of God lack faith sufficient to stage the contest.

Newfoundlanders Visit Ontario Camp

A Newfoundland brigade, the 56th Independent Field Squadron of the Royal Canadian Engineers, recently made a visit to Petawawa military camp and on the occasion presented a prepared seal to Col. H. W. Love, chief engineer of the RCE. Col. Love is seen receiving it from Major S. Willet.

Curious Corn

Corn's value lies in the meat it produces. Corn has practically no commercial value as a human food, although the United States produces 2,500,000,000 bushels of it annually. Only about 10 per cent is used in breakfast foods, corn syrup, corn meal, and other human needs, the rest going as food for cattle and hogs or becoming surplus.

Alberta Dealers Get International Recognition

Two Alberta dealers for the Minneapolis Moline Farm Machinery Company have received mention in the Minneapolis Moline News, a company publication that is distributed to Company dealers in Canada, the United States and other countries.

J. Olinyk of Thorhild and Jas. McCauley, Mannville have each been listed for special mention for their advertising programs in the THORHILD TRIBUNE and MANNVILLE MIRROR respectively. Both these weekly papers are published by T. W. Pue of Community Publications.

Amethysts were once thought to prevent drunkenness.

Solution To This Week's Puzzle

Chairman Named To Red Cross Post

Walter S. Woods, until this month deputy-minister of veterans' affairs, has been appointed first national chairman of Red Cross veterans' services.

As a volunteer Mr. Woods will head a new committee which combines all Red Cross veterans' work under its jurisdiction: arts and crafts, hospital visiting, hospital libraries, soldiers' clubs, welfare, Lodges, entertainment and film service.

Mr. Woods brings to the post a thorough knowledge of veterans' needs. Himself a veteran of World War I, he came to Ottawa in 1930 as superintendent for Southern Alberta to sit on a special committee to consider veterans' legislation. When the war Veterans' Allowance Act was enacted at that time, he was elected chairman of the board, a position he maintained until being appointed to the Pensions department in 1941. He served as deputy-minister of Veterans' Affairs from 1944 until his present retirement.

He received the CMG for his service, and in 1947 the honorary degree of L.L.D. was conferred upon him by the University of British Columbia in recognition of his untiring interest in veterans at the university level.

Letter to Louisa

Wife Faces Problem Of Unfaithful Husband

From a middle-aged woman comes this distressing letter: "I have just discovered that my husband is untrue to me. What shall I do?

"My pride urges me to get a divorce at once, as I have sufficient evidence, but herein lies my trouble. We have two daughters who are just ready to enter college. With my careful management, my husband's salary will take care of us nicely and give both girls a good education. My husband is very liberal and always allows me to manage the financial affairs of the family.

"On the other hand if I get a divorce he will scatter his money to the winds and I dare say, I would have a job to collect any alimony whatsoever. I have no training at all in the way of making a living and I should never agree to a separation from the children. And yet my whole being revolts at the idea of tolerating such a state of affairs. The girls, of course, know nothing of their father's philandering. They think him everything that a father and husband should be.

MRS. X. Y. Z.

Unfortunately, some men who have been model husbands and fathers kick over the traces as they approach middle age in a seeming effort to sow one more patch of wild oats. With most of them this Indian Summer specie of romance is short-lived about him to shut her eyes to his philandering, he is usually ready, before much time has elapsed, to return to the home hearth and rest contentedly from there on. Some get into more serious entanglements which results in disaster to everyone concerned.

In Mrs. X.Y.Z.'s case, I should have a plain, unemotional talk with my husband. I should leave all mention of his love for me out of the conversation and stress his duty to his daughters and his reputation. If his better self could not be appealed to, I think it would be wise, in view of her inability to make her own living, and the children's welfare to pocket her pride and live in his house managing things as she has always done.

Of course, she can never feel the same towards him as he will have lost her love and respect, but she will be doing a wise thing for the children and herself by keeping the world in ignorance of the family skeleton in her closet.

The woman who has never tackled the world, has no conception of what it means to give up a nice home and her place in the community for a hall bedroom and the privilege of working behind a counter all day, if she is fortunate enough to get such a job.

Mrs. X.Y.Z. cannot condone her husband's faults and if he alone could be made to suffer for his misdemeanors, it would be a different proposition.

But it is well before we set fire to dynamite to find out all those who are within the range of its destruction.

20th Century FARM NEWS

Potato Laws Amended By Recent Ottawa Act

Regulations governing the production and sale of certified seed potatoes have been amended under Order-in-Council P.C. 2805 dated June 9, 1950.

The tolerances allowed on field inspections for virus diseases in the certified class of Canadian certified seed potatoes have been reduced by approximately 50 per cent, said W. N. Keenan, Chief, Division of Plant Protection, Department of Agriculture, Ottawa, commenting on the amendments to the Act which is administered by his division.

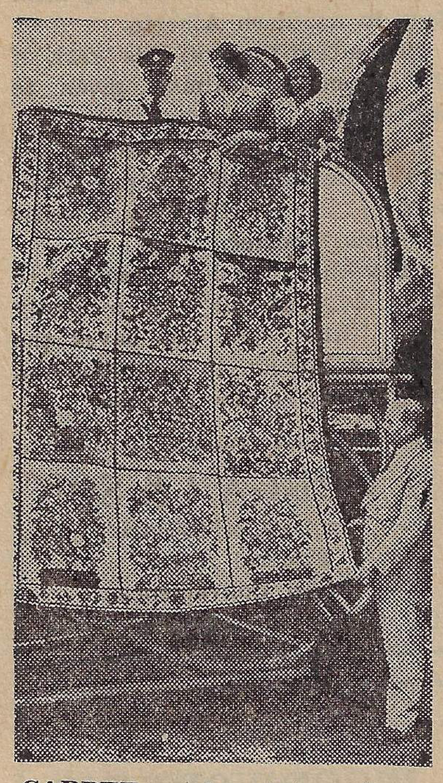

No changes have been made in the regulations regarding virus diseases in the foundation and the foundation A classes, Mr. Keenan said, the present amendments affecting only the certified class. He said that previously two per cent and one per cent of any virus was allowed on first and second field inspections respectively, but stated that this had now been reduced to only one and .5 per cent. The total of virus diseases in the certified class have been reduced from three and two, ot two and one per cent respectively for first and second inspections.

Mr. Keenan said that the for the past two years over 90 per cent of the potato fields entered in Canada in the certified class came within the new standards, and it was hopel that the new amendment would provide further stimulus to the hovement of Canadian certified seed potatoes to export markets.

Further amendments to the regulations governing the production and sale of Canadian certified seed potatoes dealt with the planting requirements of the foundation class an dthe sale of seed.

In the past for a field to be classified as "Foundation," the previous regulations required it to be planted in tuber units with an extra space between each unit. Under the new amendment, this space may be eliminated, but the units must be of uniform size in the fields, or sections of fields properly marked.

The sale of certified seed potatoes in Canada has always come under close supervision and under the new amendment, it is illegal to advertise for sale, potatoes or potato eyes as seed unless such stock is produced, harvested, stored and shipped in accordance with the regulations laid down by the Destructive Insect and Pest Act, administered by the Department of Agriculture, Ottawa.

89 Farmers Entering Save The Soil Contest

About 89 farmers in the Edmonton district have entered the Chamber of Commerce Save the Soil Contest. Now in its fourth year, contest is more popular than ever before.

Entries have been received from 19 farmers in Strathcona Municipal District, 29 from Stony Plain, 21 from Morinville and 20 from Sturgeon districts.

Contest stresses conservation and the aim is to standards of soil used in the above municipal districts.

District Agriculturist J. M. Fontaine and B. J. Whitbreak have recently been visiting contestants advising them what conservation measures to take to improve their farms.

Twenty prizes totaling $500 will be awarded, in addition to the Save the Soil Cup which goes to the farmer showing the greatest improvement during the year.

Farms are judged for freedom from weeds and soil erosion, condition of summerfallow, suitable crop rotation, yield of grain, freedom from crop diseases, and general garden condition.

Crowned Canada's Golfing Champion

Bill Kerr, of Montreal, is seen here with the Millar Trophy, which he received after blasting all opponents of the fairway in recent dominion competitions in Toronto. Largest crowds in history attended. He won the trophy for the fourth time in seven years.

The Cattle Country

Up the dusk-enfolded prairie,
Foot-fall, soft and sly,
Velvet cushioned, wild and wary,
Then—the coyote's cry.

Rush of hoofs, and roar and rattle,
Beasts of blood and breed,
Twenty thousand frightened cattle,
Then—the wild stampede.

Pliant lasso circling wider,
in the frenzied flight—
Loping horse and cursing rider,
Plunging through the night.

Rim of dawn the darkness losing
trail of blackened soil;
Perfume of the sage brush oosing
On the air like oil.

Foothills to the Rockies lifting
Brown, and blue, and green,
Warm Alberta sunlight drifting
Over leagues between.

That's the country of the ranges,
Plain and prairie land,
And the God who never changes
Holds it in His hand.

—E. Pauline Johnson.

Speed Of Growth

It is possible to measure accurately the speed of plant growth. Onions for instance, grow at a rate of a hundred-thousand of an inch per second.

During World War II, U.S. pennies were made largely from shell cases, with only a small amount of alloy up to legal standards. virgin copper added to bring the

R. C. M. P. Dog Rescues 22-Month-Old Babe

A husky Alsatian dog by the name of Asta is today the hero of the Mounted Police. While fifty men and women vainly searched the fields south of Edmonton for seven fruitless hours seeking missing Robbie Edwards, 22-month-old son of Mr. and Mrs. L. Edwards, this highly trained RCMP dog found the tot in 35 minutes.

Drama was unfolded last week when Edmonton RCMP received a call from the grief-stricken parents, informing them their son had been missing for several hours.

A party of police searchers was sent out to the Edwards residence, on rural route three just outside the city limits, near the Municipal schoolhouse, and neighbors were rounded up for the grim search.

Several hours passed while the seekers vainly looked for the little tot, until, about 4 p.m., two police dogs from the Westlock detachment were brought in.

Working in the hot blazing sun, under extremely difficult conditions caused by a 15-mile-an-hour southwest wind, Asta, and a companion dog, Smoky, were put on the trail of the babe.

In just over half an hour, Asta located young Robbie toddling down a trail a mile and a half from his home.

His parents, who had been fearful of young Robbie's life, were immediately called. The boy appeared to be none the worse for his escapade, except for a bad case of sunburn.

In charge of the two dogs is Const. W. H. Grace. They are maintained at the RCMP barracks in Westlock, and are the only such dogs in northern Alberta.

Police told the Sun this week of the extensive training given to such dogs.

The kindly dogs are among the most valualbe and honored members of the RCMP, one Mountie told this reporter.

"You know, we don't stack up to those dogs at all," he modestly said. "And when one saves the life of a human, they've rendered the greatest service possible."

FUA Membership Said Increasing

Total membership in the Farmers' Union of Alberta is higher now than it was last year.

Carl J. Stimpfle, president, said membership figures for 1950 now stand at 18,089 or 300 greater than those of the same date last year.

Drives are still continuing throughout the summer months by executives of the 900 locals.

Time Out FOR LAUGHS

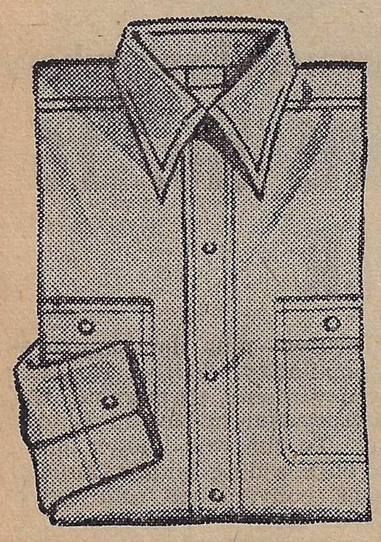

A frog was caught in a deep rut in the road. His friends rallied around him but their combined efforts couldn't get him out. One by one they left him to struggle alone. They waved their farewells. He was in despair. Next day he was seen hopping along, no longer in the rut, and chipper as you please. "Say, what are you doing here?" said a friend. "I thought you couldn't get out of that rut." "Neither I could," said the frog, "but a truck came along and I had to!"

•

A small boy's head bobbed up over the garden wall and a meek little voice said, "Please, Mrs. Black, may I have my arrow?"

"Certainly, where is it?"

"I think it's stuck in your cat!"

Harvest the All-Crop Way with the Model "60 ALL-CROP HARVESTER"

The All-Crop's ability to put clean, dry grain in the bin or bag, under bad conditions as well as good . . . and at low cost . . . is the result of sound engineering and balanced design all the way through. From sickle to straw hood, to grain bin or bag, the crop flows steadily through the All-Crop without crowding. Every unit has ample capacity to do its part of the job.

The All-Crop insures you against many of the risks and hazards that formerly caused heavy losses. If storms leave your crop a down and tangled mess, the All-Crop will pick it up and save it.

GRASSLAND NEWS NOTES

Congratulations to Mr. and Mrs. Walter Holdis on the birth of triplets last week. The happy event took place at Lac la Biche hospital on July 31st. According to latest reports the mother and babies, two boys and a girl, are doing well.

Mr. and Mrs. Semenchuk, accompanied by Mr. and Mrs. Jack Swytik, have left on a vacation trip by car. They will visit Edmonton, Calgary, Banff, Lake Louise and Jasper.

Francis Garnier and sons are busy preparing foundations for buildings to be moved on to the school grounds for Green Pine East and Blue Jay.

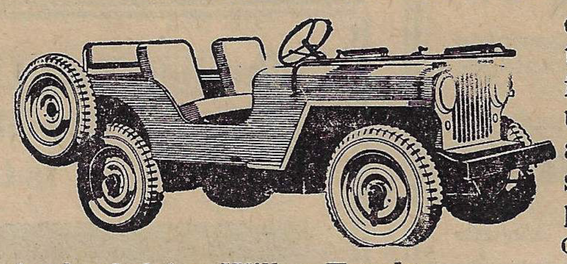

Mr. Fred Johnson has bought a new truck for use in his lumber business.

Mr. Bob Hafner, Mr. A. C. White and Mr. Andrew Bluda have all bought new tractors and are very pleased with their new purchases.

Mrs. Mary McKenzie is staying with her parents, Mr. and Mrs. Peter Kritze.

Mr. and Mrs. Kenneth McKenzie and family are visiting relatives in Grassland. Kenneth may stay the rest of the summer hauling gravel for the new highway south of Boyle.

If Your Hauling Jobs Are Too Tough for Conventional Vehicles . . .

or if you need a truck that's built from the ground up for rugged on and off the road service, it will pay you to find out about the new 4-wheel drive Willys Trucks.

Now powered by Willys' sensational new Hurricane Engine, these trucks thrive on hard work—yet give years of dependable low-cost operation.

MASSEY-HARRIS GRAIN BINDERS

The Popular Choice of Farmers Everywhere

MASSEY-HARRIS No. 16 BINDER

Retaining its many outstanding features—plus new improvements to make it still the leader in popularity. With a remarkable background of noteworthy achievements throughout the years on farms everywhere, the Massey-Harris No. 16 Binder continues to increase its popularity. To the well-known characteristics that have long made this outstanding binder famous, many improvements, giving greater convenience and extra comfort for their operator, have been added. Protection for the more important working parts has also been incorporated to give them longer life and consequently greater economy in operation. Here then is a binder built on rugged lines, with extra strength for long, economical service and the ability to handle the most difficult crop conditions. **The No. 16 Binder** fully maintains the enviable reputation gained by Massey-Harris Binders everywhere, and continues to be the leader in its field.

For the best results use Massey-Harris every time.

Stops In Edmonton En Route To Korea

Lithe 6' American-Japanese Bill Hosokawa, from Denver, Colorado, is in Edmonton en route to the Korean war front.

He is going to Korea for the Denver Post, and will be covering the war there from the human interest angle. He will also describe how democracy is taking hold in Japan and the progress of the allied occupation there.

In with his equipment were a pair of tan-colored U.S. Army Combat boots. He has taken along plenty of clothing for this assignment.

Air travel is common to this man of 35 who looks just like a young man out of college, despite the fact he's the father of four children, the oldest of which is 10.

He has worked with the Singapore Herald and later in Malaya in the Straits Settlements.

Mr. Hosokawa is the author of six recent stories in the 'Rocky Mountain Empire Magazine,' depicting the real American Westerner of today.

Former Publisher Joins CP Staff

Former publisher of one of New Brunswick's leading newspapers, Mr. James Carleton has joined the staff of Community Publications as circulation manager.

Mr. Carleton replaces Mr. Howard Large, who is leaving his post to take up a position with a distributing company.

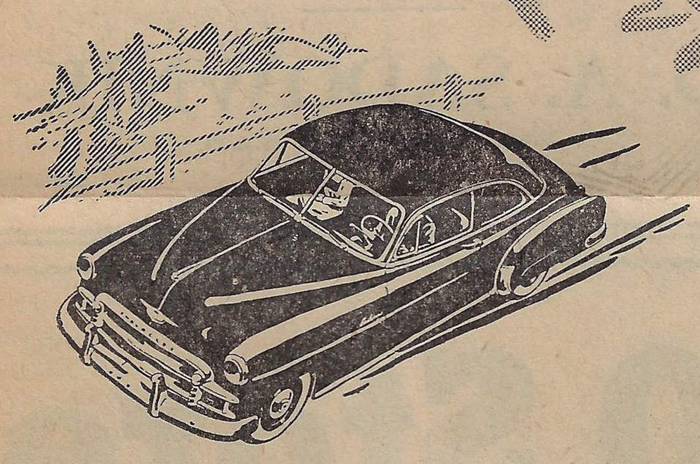

In Saint John, N.B., Mr. Carleton published "This Week," a popular week-end feature paper. He recently sold out his interests to come west, joining the migration of thousands of easterners to Alberta.

Mr. Carleton is married, and has three children.

Chevrolet drives home the facts!

Chevrolet is FIRST... and Finest... at Lowest Cost!

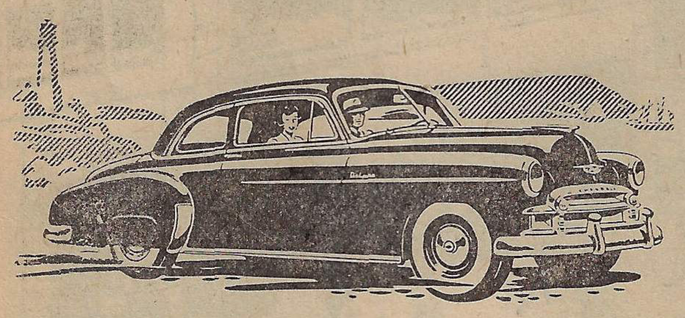

FACT No. 1

FIRST . . . and Finest . . . for THRILLS AND THRIFT

Yes, Chevrolet brings you the *finest* combination of thrills and thrift . . . with its highly-improved World's Champion Valve-in-Head engine. You get more thrills—flashing action at the get-away *and* at highway speed. You get more thrift — thanks to a new carburetor and larger exhaust valves. And traditional Chevrolet dependability!

FACT No. 2

FIRST . . . and Finest . . . for ALL-ROUND SAFETY AT LOWEST COST

Chevrolet is the only low-priced car offering this five-fold safety-protection: (1) Curved Windshield with Panoramic Visibility, (2) Extra-strong Fisher Unisteel Body, (3) Safety Glass throughout, (4) Super-Safe Unitized Knee-Action Ride, and (5) Proved Certi-Safe Hydraulic Brakes!

Come in . . . get *all the facts* about Chevrolet . . . Canada's best seller . . . Canada's best buy . . . and you'll want to *own a new Chevrolet!*

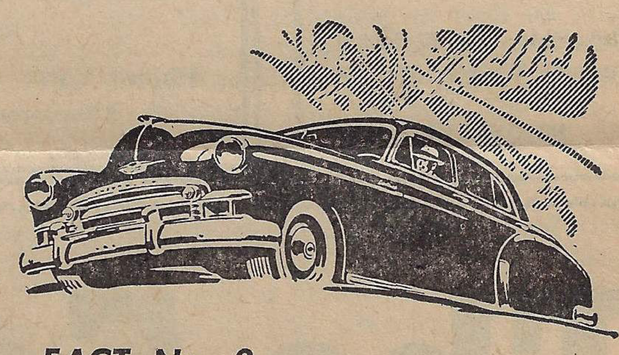

You'll experience its extra-value in *every* phase of Chevrolet road-action . . . in its fleet and frugal Valve-in-Head performance . . . in its finer driving and riding ease . . . in the enviable view afforded by its curved windshield with Panoramic Visibility . . . and in its greater all-round safety-protection.

You'll know it's the best buy the minute you take the key and start the smooth-running Valve-in-Head Engine; and, incidentally, *one key fits everything,* from the ignition lock to the big, capacious luggage compartment. If you wish you can lock glove and luggage compartments and remove the key without locking the ignition.

Come in — *today!* Let Chevrolet drive home these facts to your own complete satisfaction! And you'll be quick to agree that Chevrolet is *first and finest at lowest cost!*

CHEVROLET

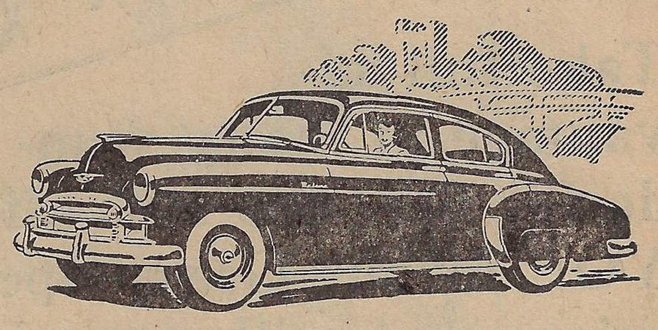

A GENERAL MOTORS VALUE

FACT No. 3

FIRST . . . and Finest . . . for STYLING AND COMFORT AT LOWEST COST

Chevrolet's exclusive Style-Star Bodies by Fisher, with tasteful two-tone interiors, bring you extra-wide form-fitting seats — extra-generous head, leg and elbow room — extra value in *every* detail of styling and comfort in this *longest and heaviest* of all low-priced cars!

FACT No. 4

FIRST . . . and Finest . . . for DRIVING AND RIDING EASE AT LOWEST COST

Of all low-priced cars only Chevrolet offers you the superlative riding smoothness, road-steadiness and driving ease of Centre-Point Design. Centre-Point Steering, Centre-Point Seating, Low Centre of Gravity and Centre-Point Rear Suspension all add up to a ride you'll call a dream!

Come in . . . Examine the Leader . . . Convince yourself Chevrolet's FIRST . . . and Finest . . . at Lowest Cost!

The MASSEY-HARRIS No. 11 SIDE RAKE

Available for Use With Either Tractor or Horse Hitch

Adjustable cylinder action to suit all kinds and conditions of hay and other crops handled by a side rake is a feature of the Massey-Harris No. 11. An ingenious eccentric device, adjusted by a convenient hand crank, controls the angle and stroke of the teeth engaging the crop. It is possible with this device to set quickly and easily the action of the cylinder to handle light, medium or heavy crops.

This side rake has four bars in the cylinder—the additional bar over previous models offsets the speed-up in travel incidental to tractor farming without increasing cylinder speed. Teeth have four coils each and are attached by means of a bolt and a malleable bracket. For exceptional performance and dependability buy Massey-Harris.
